Historical Origins and Publication Background Origins and Development The Riverside Chaucer was first published in 1975 as part of the Riverside Literature Series by Houghton Mifflin Company. It was conceived as an authoritative, scholarly edition of Geoffrey Chaucer's complete works, aiming to make the Middle English texts accessible and comprehensible to both students and scholars. The impetus for this edition stemmed from a growing recognition of Chaucer's central role in English literary history and the need for a comprehensive, reliable edition that reflected the latest in manuscript research and textual criticism. The project was spearheaded by a team of distinguished scholars, including Robert M. Adams, who contributed extensive notes and annotations. The edition was designed to serve as a definitive resource, combining the original Middle English texts with modern translations, annotations, and contextual commentary. This compilation of new essays and essays published over the past fifty years explores Chaucer's experiences with the cultural other, especially Chaucer's relationship to far eastern, Islamic, and African sources. While studies of Chaucer's Orientalism have heretofore focused on the Squire's Tale, Chaucer's cultural geography considers many different Chaucerian works in the context of sexual geographies and colonizing and postcolonizing discourses. It comes at a time when critical methodology is being debated and a variety of approaches to Chaucer studies using modes of analyses normally reserved for later periods, including Said's Orientalism, theories of Derrida's transgressive proximity, and new French feminism. Over the last twenty-five years, the history of emotion field has become one of the most dynamic and productive areas for humanities research. This designation and the marked leadership of historians in the field has had the unlooked-for consequence of sidelining literature in particular, secular literature as evidence source and object of emotion study. The aim of this book is to decentre history of emotion research and asks new questions, ones that can be answered by literary scholars using literary texts as sources: how do literary texts understand and depict emotion, and crucially, how do they

generate emotion in their audiences those who read them or hear them read or performed
